Professional Summary

Junior Software Engineer with 8 months of experience in full-stack development and blockchain. Built production features using MERN stack, contributed 10,000+ lines of code as Developer Ambassador, and delivered multiple award-winning Web3 + AI projects. Immediate joiner seeking growth in Full-Stack / Web3 / AI roles. Strong in React, Node.js, FastAPI, Solidity, and AWS.

Professional Experience

- **Junior Software Engineer, Medzen Innovations Pvt. Ltd. (Remote)** March 2026 – Present
Developed full-stack client-employee management system using React + Node.js. Designed scalable architecture and improved internal workflows.
- **Developer Ambassador, LazAI (Remote)** August 2025 – December 2025
Contributed 10,000+ lines of production code; implemented optimizations improving platform performance by 3-5%. Engaged developer community.
- **Software Development Intern, SecureDapp (Remote)** December 2024 – August 2025
Built analytics and core features using MERN stack + MySQL, resulting in 20% performance improvement.
- **SDK Tester, Okto (Onsite)** February 2025
Tested Okto SDK v2 for blockchain applications; developed API testing suite and delivered report.

Projects

- **Hubive: AI Video Generation Platform**
Built full-stack AI video generation platform using FastAPI backend and AWS infrastructure. [Link]
- **ZeroCodeX: AI-Powered No-Code Platform (Winner)**
Developed AI-driven no-code tool using Next.js & FastAPI. [Link]
- **TN-KUN: Blockchain Authentication (Winner)**
Secure auth system using Solidity, React, IPFS & Anon Aadhaar. [Link]
- **SatoshiScript: Solidity to Clarity Transpiler (Winner)**
Created transpiler tool solving major developer issues in Clarity ecosystem. [Link]
- **ArcadeBlock & EduXlite (Top 25 & Top 150)**
Token game platform (Next.js + Monad) and blockchain course platform with staking & AI features.

Extracurricular Activities

- Instructor: Coding Classes for Juniors (2024–2025)
- Member: TPG Chennai & Web3 Chennai
- Coordinator: Gryffindors & Fortiv

Education

- **B.E. Computer Science and Engineering**, Jaya Engineering College, Thiruvallur 2022 – 2026
CGPA: 8.68

Technical Skills

- **Languages:** JavaScript, TypeScript, Solidity, Python
- **Frontend:** React.js, Next.js, React Native
- **Backend:** Node.js, FastAPI
- **Databases:** MySQL, PostgreSQL, MongoDB, Supabase, Firebase
- **Cloud:** AWS
- **Blockchain:** Smart Contracts, IPFS
- **Tools:** Git, REST APIs
